Career Objective

Electronics and Telecommunication Engineer specializing in MERN Stack, AI/ML, and Cyber-Physical Systems Security with applications in autonomous vehicles and cybersecurity. Committed to pursuing higher education abroad to advance research capabilities, with a vision to contribute to the research community and mentor students as a supervisor. Aspires to build a dual career in industry—developing innovative software solutions—and academia—teaching and guiding future technologists.

Education

BSc	Rajshahi University of Engineering & Technology (RUET) , Electronics and Telecommunication Engineering CGPA: 3.76/4.0	March 2022- July 2026
HSC	Govt. Science College, Tejgaon, Dhaka GPA: 5.00/5.00	2020
SSC	Chatkhil P.G Govt High School, Chatkhil, Noakhali GPA: 5.00/5.00	2018

Work Experience

Industrial Trainee , Teletalk Bangladesh Ltd. - Gained hands-on experience in telecommunications infrastructure, observing BTS (Base Transceiver Station), BSC (Base Station Controller), and MSC (Mobile Switching Center) operations. - Explored the practical workings of the telecom industry through field visits and technical exposure to network management systems.	March 03, 2025 – March 18, 2025
---	---------------------------------

Skills

Programming Languages: C, C++, Python, HTML, CSS, JavaScript, MATLAB, $\text{\LaTeX}$
Web Development: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Bootstrap, Socket.io, JWT, Firebase
Machine Learning & AI: TensorFlow, Keras, PyTorch, YOLO, OpenCV, Scikit-learn, Streamlit, Pandas, NumPy
Mobile Development: React Native, Expo
Tools & Technologies: Git, GitHub, VS Code, Jupyter, Google Colab, Postman, AutoCAD
Languages: English (Intermediate), Bengali (Native)

Projects

Multi Purpose Robot by Arduino Arduino-based robot with object following, obstacle avoidance, Bluetooth app control, and Google Assistant voice command functionality.	More
RUET Social MERN stack alumni networking platform with email verification, post interactions, and real-time one-to-one chat using Socket.io.	Live Demo GitHub

Hospital Management System

- MERN stack platform with role-based dashboards for patients, doctors, and admin, featuring appointment scheduling and complete user management.

[Live Demo](#) [GitHub](#)

Online Ticket Booking System

- Online bus booking system for Bangladesh with AI-powered chatbot integration for intelligent customer support and ticket inquiries.

[Live Demo](#) [GitHub](#)

QuizMaster

- MERN stack quiz platform with custom quiz creation, AI-generated topic suggestions, and performance tracking dashboard.

[Live Demo](#) | [GitHub](#)

Hall Token Management System

- MERN stack university hall token booking system with admin dashboard and JWT authentication for secure user management.

[Live Demo](#) | [GitHub](#)

YOLO Car Detection & Counting System

- Real-time vehicle detection and counting system by YOLO and BotSORT tracking with multi-class support (Car, Motorcycle, Bus, Truck) and bi-directional counting.

Certifications

Paper Presentation in ICCIT-2025 , ICCIT 2025	2025
Paper Presentation in ICECTE-2026 , ICECTE 2026	2026
Paper Presentation in PECCII-2026 , PECCII 2026	2026
3rd Place - Project Showcasing , RUET INNOVISTA 2025	2025
Full Stack Development with MERN , Grameenphone Academy	2024
Introduction to Web Development with HTML, CSS, JavaScript , IBM (Coursera)	2024
Getting Started with Git and GitHub , IBM (Coursera)	2024
Master HTML and CSS by Building Real-World Projects , Udemy	2024
Master Git and GitHub – Beginner to Expert , Udemy	2024
React Basics , Meta (Coursera)	2024
Artificial Intelligence & Machine Learning Fundamentals , Grameenphone Academy	2026
