Career Objective

As a MERN Stack Web Developer and AI Researcher, I have worked extensively in the fields of Autonomous Vehicles, Cybersecurity, Cyber-Physical Systems, and Machine Learning. I am driven by the vision of creating intelligent web platforms that seamlessly integrate AI to address real-world challenges. My dream is to pursue higher studies abroad to expand my research capabilities and technical depth. Looking ahead, I aim to build a dual career in the software industry, developing cutting-edge applications, and in academia, teaching and mentoring future technologists and researchers.

Education

BSc	Rajshahi University of Engineering & Technology (RUET) , Electronics and Telecommunication Engineering	March 2022- August 2026
	• CGPA: 3.74/4.0	
HSC	Govt. Science College, Tejgaon, Dhaka	2020
	• GPA: 5.00/5.00	
SSC	Chatkhil P.G Govt High School, Chatkhil, Noakhali	2018
	• GPA: 5.00/5.00	

Skills

Programming Languages: C, C++, Python, HTML, CSS, JavaScript, MATLAB, $\text{\LaTeX}$

Web Development: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, Bootstrap, Socket.io, JWT, Firebase

Machine Learning & AI: TensorFlow, Keras, PyTorch, YOLO, OpenCV, Scikit-learn, Streamlit, Pandas, NumPy

Mobile Development: React Native, Expo

Tools & Technologies: Git, GitHub, VS Code, Jupyter, Google Colab, Postman, AutoCAD

Languages: English, Bengali

Projects

Multi Purpose Robot by Arduino

[More](#)

- Arduino-based robot with object following, obstacle avoidance, Bluetooth app control, and Google Assistant voice command functionality.

RUET Social

[Live Demo](#) | [GitHub](#)

- MERN stack alumni networking platform with email verification, post interactions, and real-time one-to-one chat using Socket.io.

Hospital Management System

[Live Demo](#) | [GitHub](#)

- MERN stack platform with role-based dashboards for patients, doctors, and admin, featuring appointment scheduling and complete user management.

Online Ticket Booking System

[GitHub](#)

- Online bus booking system for Bangladesh with AI-powered chatbot integration for intelligent customer support and ticket inquiries.

Pharmacy Management System

- Full-stack MERN application for pharmacy owners to manage medicine inventory, process sales, generate invoices, track sales history, and search medicines with PDF invoice generation and complete CRUD operations.

[Live Demo](#) | [GitHub](#)

QuizMaster

- MERN stack quiz platform with custom quiz creation, AI-generated topic suggestions, and performance tracking dashboard.

[Live Demo](#) | [GitHub](#)

Hall Token Management System

- MERN stack university hall token booking system with admin dashboard and JWT authentication for secure user management.

[Live Demo](#) | [GitHub](#)

XSS Detection System

- Real-time XSS payload detection system based on my research dataset, using ML and Deep Learning algorithms to classify malicious or benign payloads.

[Live Demo](#) | [GitHub](#)

YOLO Car Detection & Counting System

- Real-time vehicle detection and counting system by YOLO and BotSORT tracking with multi-class support (Car, Motorcycle, Bus, Truck) and bi-directional counting.

[GitHub](#)

Books Recommendation System (React Native)

- React Native mobile app where users can create accounts, share book recommendations with text and star ratings, upload book images, and browse community recommendations with MERN stack backend.

[GitHub](#)

Certifications

Paper Presentation in ICCIT-2025, ICCIT 2025

2025

- DeepGuard-XSS: Leveraging Large Language Models with CNN-BiLSTM

Paper Presentation in ICECTE-2026, ICECTE 2026

2026

- XSS-SafeNet: A Bidirectional LSTM Architecture for High-Precision XSS Detection

3rd Place - Project Showcasing, RUET INNOVISTA 2025

2025

- Faculty of Electrical & Computer Engineering

Full Stack Development with MERN, Grameenphone Academy

2024

Introduction to Web Development with HTML, CSS, JavaScript, IBM (Coursera)

2024

Getting Started with Git and GitHub, IBM (Coursera)

2024

Master HTML and CSS by Building Real-World Projects, Udemy

2024

Master Git and GitHub – Beginner to Expert, Udemy

2024

React Basics, Meta (Coursera)

2024

JavaScript Certification Test, Complete Coding by Prashant Sir

2024

HTML Certification Test, Complete Coding by Prashant Sir

2024

CSS Certification Test, Complete Coding by Prashant Sir

2024

Publications

DeepGuard-XSS: Leveraging Large Language Models with CNN-BiLSTM for Robust Detection of Obfuscated XSS Attacks

[IEEE Xplore](#)

ICECTE 2026, Rajshahi, Bangladesh

XSS-SafeNet: A Bidirectional LSTM Architecture for High-Precision Cross-Site Scripting Detection
